

FOR IMMEDIATE RELEASE

BMR Fabrication Rear Suspension Bushing Kit for Pontiac G8

Minimize suspension deflection and improve overall handling in your Pontiac G8 with a Rear Suspension Bushing Kit from BMR Fabrication. Manufactured from low-deflection polyurethane, this kit includes lower control arm outer bushings, upper control arm inner bushings, and trailing arm outer bushings. The BMR Rear Suspension Bushing Kit (BK007) minimizes bushing deflection in all rear suspension links. Reduced movement in these key areas ensures maximum power transmission to the wheels resulting in better traction and more predictable handling during hard cornering maneuvers. Available in black.
