

FOR IMMEDIATE RELEASE

BMR Fabrication Control Arm Relocation Brackets for GM G-Body Chassis

Improve anti-squat characteristics in your G-Body chassis with a set of Control Arm Relocation Brackets from BMR Fabrication. These brackets are manufactured from 3/16" CNC laser cut and formed steel and they can be bolted or welded into place. The BMR Control Arm Relocation Brackets (CAB003) have provisions for mounting the control arms in 3 different positions (including the OE location). This allows the driver to adjust the "instant center" location to optimize the launching and handling characteristics of the vehicle. Provided with grade 8 mounting hardware. Installation time is only 2 hours. Available in black hammertone or red powdercoat.

To preview all of BMR's high-performance suspension parts, please visit www.bmrfabrication.com, email sales@bmrfabrication.com, or contact them at BMR Fabrication, 12581 US Highway 301 North, Thonotosassa, FL 33592, 813-986-9302, Fax: 813-986-8055.
