'93-'02 F-BODY A/C DELETE PANEL

Thonotosassa, FL - It's been almost 6 years since we have had an F-Body and the last generation of these cars are up to almost 15 years old now. More and more of these cars are now becoming dedicated race cars as prices continue to drop. Since race cars don't need air conditioning and deleting the entire system can save almost 100 pounds, it's a no-brainer modification. BMR's new A/C delete panel for the Fourth Generation F-Body is an easy solution to the large hole left in the firewall once the A/C has been removed. BMR makes their A/C delete panels from 1/8" aluminum to keep the product lightweight yet not flexible. Patterned after the OE A/C box and precision laser cut to bolt on using existing mounting holes.

Part# FP003 - \$79.95

To preview all of BMR's high-performance suspension parts, please visit www.bmrfabrication.com, e-mail sales@bmrfabrication.com, or contact them at BMR Fabrication, 12581 US Highway 301 North, Thonotosassa, FL 33592, 813-986-9302, Fax: 813-986-8055.
