

FOR IMMEDIATE RELEASE

BMR Fabrication Toe Rods for the 2010 Camaro

Minimize toe change and stabilize the rear suspension in your 5th Gen Camaro with a pair of Heavy Duty Toe Rods from BMR Fabrication. Constructed from 1" x 2" x .083" wall rectangular steel and utilizing high-durometer, internally fluted polyurethane bushings, these toe rods replace the factory stamped steel/rubber bushing design. Factory toe rods under load can cause poor launch stability, inconsistent handling and decreased braking ability. The BMR Heavy Duty Toe Rods (TR002) eliminates deflection under load ensuring consistent and predictable handling and much improved launch control. Installation time is less than 1 hour. Available in black hammertone or red powdercoat finishes.

To preview all of BMR's high-performance suspension parts, please visit www.bmrfabrication.com, email sales@bmrfabrication.com, or contact them at BMR Fabrication, 12581 US Highway 301 North, Thonotosassa, FL 33592, 813-986-9302, Fax: 813-986-8055.
